

NATIONAL AEROSPACE WEEK

SEPTEMBER 12-18, 2010

**FROM TAKEOFF TO LIFTOFF AND BEYOND,
THE AEROSPACE AND DEFENSE INDUSTRY IS POWERED BY PEOPLE.**

A strong America. A secure America. A prosperous and competitive America. Every day, the men and women in the aerospace and defense industry support more than two million jobs in all 50 states. Their work helps secure our freedom. Assure our leadership in aviation and space. And contribute to our economic well-being as America's leading manufacturing export industry. During National Aerospace Week, we're proud to honor the men and women who lift America. Because there are two words we cannot say too often: Thank you.

AEROSPACE AND DEFENSE: THE STRENGTH TO LIFT AMERICA.
